Dear Speaker Ryan, Democratic Leader Pelosi, Majority Leader McConnell, Democratic Leader Schumer, Chairman Brady, Ranking Member Neal, Chairman Hatch and Ranking Member Wyden:

The undersigned organizations representing a wide range of business, energy, transportation, real estate and agriculture stakeholders, are again writing to you regarding expiring tax provisions (“tax extenders”). We urge Congress to, at a minimum, extend these tax provisions through 2018 as part of the forthcoming omnibus appropriations bill or on the first appropriate legislative vehicle.

The *Bipartisan Budget Act of 2018*, signed into law on February 9, 2018, extended various tax provisions that expired at the end of 2016 for one year, through 2017. Thus, these various tax provisions remain lapsed, hindering the creation of jobs and economic growth in the private sector. This has the practical effect of undermining the effectiveness of these policies and needlessly sowing confusion and uncertainty for taxpayers. Extending these provisions through 2018 helps avoid these negative outcomes, and does so in a way that does not preclude Congress from reviewing the efficacy of expiring tax provisions during the 2nd Session of the 115th Congress.

Accordingly, we respectfully ask that Congress at least extend the various tax provisions that expired at the end of 2017 for one year, through 2018, as soon as possible (e.g., as part of the omnibus appropriations bill). We look forward to constructively working with you to achieve this important goal. Thank you in advance for your consideration.

Sincerely,
